A New Paradigm - Overview

Increase awareness and refocusing on immigrants on the immigrant advisory council.
Allowing the council to be immigrant led

Red Deer Local Immigration Partnership is located in Red Deer Alberta serving the city of Red Deer and surrounding areas. Red Deer is currently Alberta's third largest city with a population of 300,000. With all of the settlement agencies based in Red Deer, rural newcomers often lack access to service or have to travel in order to obtain services. The Immigrant Advisory Council, the backbone of Red Deer Local immigration often feels the pinch of the lack of engagement due to many factors one of which is engagement.
